

## **LANSDSLIDE IN KOTTAYAM**

Inspired of the course “Global Environmental History” group of students undertook a minor field research on the theme Landslide in Kottayam. The students involved in the field research includes Siddharth, Akhil P, Anoop, Adhena and Anna. They were able to identify some of the consequences of landslide in Kottayam specifically in the Mundakkayam region. The outcome of the field research was a documentary lasting 25 minutes. The students screened the same for the awareness of peer group in the university.
